

Freshline: Smart Salon Booking Platform

Prepared by: Salman Mohamed & Mujtaba Hussain

Supervisor: Dr. Ali Zolait

University of Bahrain

ITIS 499 – Senior Project

Problem Statement

Current Challenges

Many salons continue to rely on outdated traditional methods including walk-ins and phone calls, creating operational inefficiencies for businesses and frustration for customers.

Long Waiting Times

Customers face extended wait periods without knowing availability in advance

Inefficient Scheduling

Salon owners struggle with managing overlapping appointments and employee schedules

Visibility Gap

Lack of clear service availability information leads to customer dissatisfaction

Project Objectives

Customer Experience

Create a complete digital salon platform that transforms how customers discover and book beauty services.

- Browse salons with detailed profiles and reviews
- Book appointments instantly with real-time availability
- Purchase salon products directly through the platform
- Receive personalized service recommendations

Salon Management

Empower salon owners with comprehensive digital tools to streamline their operations.

- Manage employees and service offerings efficiently
- Track bookings and customer history in one place
- Monitor revenue and business performance metrics
- Optimize scheduling to maximize salon capacity

Mission & Vision

Mission

Transform the salon experience through an intelligent, user-friendly digital platform that delivers seamless booking and smart recommendations while providing salon owners with powerful management tools.

Vision

Become the leading salon booking platform in Bahrain, expand operations across the GCC region, and drive the digital transformation of traditional salon businesses throughout the Middle East.

Idea Validity

High Market Demand

Significant and growing demand for digital booking solutions in the beauty industry

User Preference

Customers increasingly prefer convenient, centralized platforms for service booking

Comprehensive Solution Solution

Combines multiple services including booking, products, and management in one system

Technical Feasibility

Built using modern, proven technologies with clear implementation pathways

Proven Market Need

Existing successful platforms demonstrate strong market validation and opportunity

Competitive Analysis

Major Competitors

Freshline enters a competitive market with established players but differentiates through enhanced features and local market focus.

Fresha

Global platform with basic booking features

Booksy

Popular in select markets with commission model

Treatwell

Strong European presence with salon partnerships

Urban Company

Regional service marketplace with multiple categories

Competitive Analysis

Feature Comparison

Feature	Competitors	Freshline
Online Booking	✓ Yes	✓ Advanced
Product Sales	✗ Limited	✓ Full Integration
AI Features	✗ No	✓ Intelligent Recommendations
Multi-role Support	✗ Limited	✓ Complete System
Local Focus	✗ Weak	✓ Bahrain First

Business Model Canvas

Customer Segments

Individual customers seeking salon services, salon owners managing businesses, and salon employees providing services

Cost Structure

Development costs, server infrastructure, marketing expenses, and ongoing maintenance

Partnerships

Salon partnerships, payment processors, product suppliers, and technology providers

Value Proposition

Complete all-in-one platform with AI-powered features delivering easy, efficient experience for all stakeholders

Revenue Streams

Monthly subscriptions from salons and customers, commission on bookings, revenue from product sales

Key Resources

Platform technology, AI algorithms, user interface, and customer support infrastructure

Business Model Canvas

Marketing Segmentation

Market segmentation based on three primary dimensions to effectively target and serve our diverse customer base.

01

Demographics

Age groups, gender, income levels, and lifestyle preferences

02

Behavioral Patterns

Usage frequency, service preferences, booking habits, and product interests

03

Geographic Focus

Initial launch concentrated in Bahrain with plans for GCC expansion

Market Segmentation

Targeting the right audience with the right experience

OUR USERS

- Diverse needs
- Different behaviors
- Unique preferences

SMART SEGMENTATION

Understand user groups

Tailor experiences

Deliver more value

BETTER ENGAGEMENT

- Higher satisfaction
- Stronger retention
- Business growth

OUR MAIN SEGMENTS

Customers

Individuals looking for quality grooming and convenient booking.

Salon Owners

Business owners managing their salons and growing their brand.

Employees

Salon staff providing services and managing daily operations.

GEOGRAPHIC FOCUS

Initially focusing on Bahrain with plans to expand across the GCC.

Localized

Relevant

Scalable

Marketing Segmentation

Target Audience

Customers

Individuals seeking convenient salon services and products

Salon Owners

Business owners looking to digitize and optimize operations

Employees

Service providers managing schedules and customer relationships

Financial Planning

Revenue Sources

Customer Subscriptions

Premium membership tiers offering enhanced features and priority booking

Booking Commissions

Percentage of each booking transaction processed through the platform

Salon Subscriptions

Monthly fees for salon owners to access management tools and platform features

Product Sales

Revenue from salon product purchases facilitated through the platform

Financial Planning

First Year Projections

12,250 BHD

Projected total income in first year of operation

4,670 BHD

Estimated total operational costs

7,580 BHD

Net income after expenses

✔ The project demonstrates strong financial sustainability and profitability potential with positive ROI in first year.

Demonstration

Future Work

Enhanced AI Capabilities

Advanced machine learning algorithms for personalized recommendations and predictive analytics

Regional Expansion

Strategic rollout across GCC markets including Saudi Arabia, UAE, and Kuwait

Improved UX/UI

Enhanced user interface with intuitive design and seamless mobile experience

Advanced Analytics

Comprehensive business intelligence tools for salon owners with real-time insights

Loyalty Programs

Develop rewards systems and customer retention strategies to build long-term engagement

Conclusion

Real Industry Challenges

Freshline addresses real challenges in the salon industry

Complete Digital Solution

Provides a complete and efficient digital solution

Better Experience & Operations Operations

Improves both customer experience and business operations

Built for Growth

High potential for growth and scalability
